Light source and fixing material are not part of the lighting fixture kit.

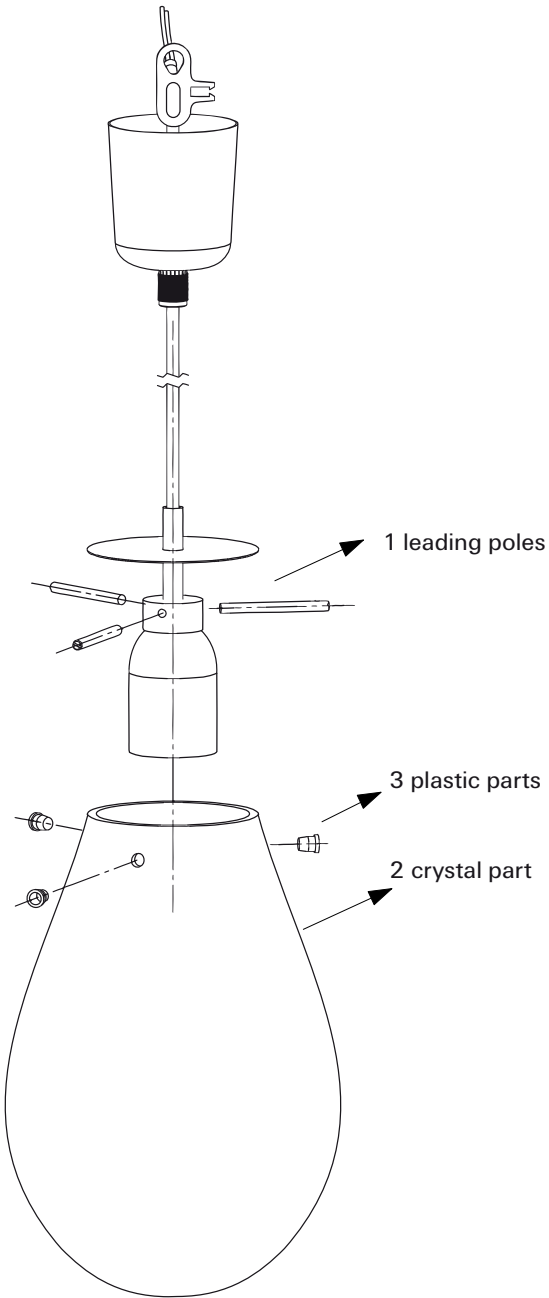

D, Assembly and Disassembly /connecting to and disconnecting from the network

- After unpacking, first of all, check for damage during the transport and for completeness, see pic.1. If anything is wrong, contact your dealer immediately since later complaint for the above reasons would not be accepted.
- Perform the assembly of the appliance with the use of schematic drawing, respecting that the electric installation and connection to the network may be performed by an electrician with proper qualifications only, while observing general regulations as well.
- Unscrew the leading poles (1) from the body of lighting and the use the appropriate source on the bulb sleeve E27.
- Put the plastic parts (3) on the crystal lampshades (2), insert it from the down side on the bulb sleeve and fix it by screwing back the leading poles (1).
- At disassembly, first switch the lighting fitting off, and disconnect it from the power.
- Then you may proceed in a similar way, in the opposite order than at the assembly.
- Any transport of the appliance later should be performed either in the original wrap or similar in order to avoid damage.
- Technical support: info@bomma.cz

E, Technical specification, purpose

- Nominal voltage: 250 V/ A.C. 50Hz
- Protection: IP 20
- Nominal input: 1x 40 W (E27)
- Lamp carrying capacity: 3 kg
- Weight of crystal part small: aprox. 1,2 kg
- Weight of crystal part large: aprox. 2 kg
- Class: II.

Doporučený světelný zdroj: LED E27-4W.

F, Liquidation
